

## CATTLE STARTER PELLETS

### ABOUT OUR PELLETS

- Kojonup Feeds Cattle Starter Pellets are a high protein, moderate energy grain-based pellet designed primarily as an introduction for cattle prior to the finishing phase in the feedlot.
- Kojonup Feeds Cattle Starter Pellets contain a comprehensive macro-mineral, trace element and vitamin package to suit WA conditions.
- They can be fed in conjunction with a palatable roughage in the feedlot or used as a supplement in conjunction with pasture during backgrounding in the paddock.
- Once cattle have been introduced to grain-based rations on their path to finishing, they must have continuous access.
- Roughage and potable water should be continuously available.
- All cattle on grain-based rations should be fully immunised against clostridial diseases.
- Our standard pellet size is 6mm.

### TYPICAL INGREDIENTS

- May contain one or more of the following due to seasonal variations: Oat hulls, Barley, Lupins, Lime, Salt.
- Macro-mineral, trace element and vitamin premix.
- Kojonup Feeds Pellets DO NOT contain Urea.

### FEEDING GUIDE

- Kojonup Feeds Cattle Starter Pellets are designed for introducing cattle or calves to Kojonup Feeds Cattle Finisher Pellets in a feedlot.
- They are safe to feed in self-feeders or trail-fed to cattle with ad-lib access to roughage.
- Starter Pellets can also be used to meet more moderate levels of performance such as deferral feeding of mature cattle.
- The recommended rate of feeding will depend on the desired level of performance and the nature of any complementary feed-base.
- Provide free access to good quality drinking water at all times.

### NUTRITIONAL ANALYSIS

- Crude Protein 18%
- Metabolisable Energy 10MJ/kg

### STORAGE INSTRUCTIONS

- Store in a cool, clean and ventilated place.
- Protect from insects and vermin.
- When stored under the correct conditions, best before 12 months from packing date.

**THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL AND CAN BE FED TO RUMINANTS**
