

CATTLE WEANER PELLETS

ABOUT OUR PELLETS

- Kojonup Feeds Cattle Weaner Pellets are a high protein supplement to support development of weaners (120-250KG) to achieve growth and reproductive targets.
- Contain a comprehensive macro-mineral, trace element and vitamin package to suit WA conditions.
- They can be fed at a variable rate depending on the level of performance required and the availability and quality of forage on offer.
- Weaners must be appropriately introduced to grain-based rations by gradually increasing the amount fed.
- Once weaners have been introduced to grain-based rations, they must have continuous access for the feeding period.
- Roughage and potable water should be continuously available.
- All cattle on grain-based rations should be fully immunised against clostridial diseases.
- Our standard pellet size is 6mm.

TYPICAL INGREDIENTS

- May contain one or more of the following due to seasonal variations: Oat hulls, Barley, Lupins, Lime, Salt.
- Macro-mineral, trace element and vitamin premix.
- Kojonup Feeds Pellets DO NOT contain Urea.

FEEDING GUIDE

- Kojonup Feeds Cattle Weaner Pellets have a very high grain content and MUST NOT be fed to hungry stock.
- Introduce pellets gradually over 10-15 days depending on rate of feeding, available forage base and previous feeding history.
- Provide free access to good quality drinking water at all times.
- Voluntary intake of this product should be 2-2.5% of live weight.
- Feeding rate can be adjusted to suit the quality and availability of the primary forage base and the desired level of performance.

NUTRITIONAL ANALYSIS

- Crude Protein 18%
- Metabolisable Energy 12MJ/kg
