

SHEEP FINISHER PELLETS

ABOUT OUR PELLETS

- Kojonup Feeds Sheep Finisher Pellets are a balanced, nutrient dense pellet designed to lot-finish sheep or lambs with optimum carcase quality for slaughter.
- Kojonup Feeds Sheep Finisher Pellets contain a comprehensive macro-mineral, trace element and vitamin package to suit WA conditions.
- They can be used for ad lib feeding in conjunction with ad lib roughage following appropriate introduction of sheep to grain-based rations using Sheep Starter Pellets or following a strict regime of gradually increasing amounts of Finisher Pellets.
- Once sheep have been introduced to grain-based rations on their path to finishing, they must have continuous access.
- Roughage and potable water should be continuously available.
- All sheep on grain-based rations should be fully immunised against clostridial diseases.
- Our standard pellet size is 6mm.

TYPICAL INGREDIENTS

- May contain one or more of the following due to seasonal variations: Oat hulls, Barley, Wheat, Lupins, Lime, Salt.
- Macro-mineral, trace element and vitamin premix.
- Kojonup Feeds Pellets DO NOT contain Urea.

FEEDING GUIDE

- Kojonup Feeds Sheep Finisher Pellets have a very high grain content and MUST NOT be fed to hungry stock.
- Transition to Sheep Finisher Pellets following the introduction of Sheep Starter Pellets by refilling self-feeders with Finisher when still one-third full with Starter after approximately 7 days on feed.
- Provide free access to good quality drinking water at all times.
- Maintain continuous access to hay or other fibre source.
- Voluntary intake of this product should be 3-3.5% of live weight.
