

SHEEP MAINTENANCE PELLETS

ABOUT OUR PELLETS

- Kojonup Feeds Sheep Maintenance Pellets contain moderate levels of protein, energy and fibre to maintain or moderately improve the condition of adult sheep depending on the level of feeding.
- An appropriate option in situations of overall feed shortage but should be fed in conjunction with an additional roughage source.
- Contain a comprehensive macro-mineral, trace element and vitamin package to suit WA conditions.
- Once sheep have been introduced to Maintenance Pellets, they should have continuous access for the feeding period or have their allowance reduced if feeding is interrupted.
- Roughage and potable water should be continuously available.
- All sheep on high energy rations should be fully immunised against clostridial diseases.
- Our standard pellet size is 6mm.

TYPICAL INGREDIENTS

- May contain one or more of the following due to seasonal variations: Oat hulls, Barley, Wheat, Lupins, Lime, Salt.
- Macro-mineral, trace element and vitamin premix.
- Kojonup Feeds Pellets DO NOT contain Urea.

FEEDING GUIDE

- Kojonup Feeds Sheep Maintenance Pellets have a very high grain content and MUST NOT be fed to hungry stock.
- They should be introduced over a 3-5 day period with continuous access to hay or other fibre source.
- Provide free access to good quality drinking water at all times.
- Voluntary intake of this product should be 2-2.5% of live weight.
